

La Nucía ONE

Memoria de calidades

Where the everyday becomes extraordinary.

FOUNDATIONS & STRUCTURE	← Foundations using reinforced concrete footings. ← Structure of reinforced concrete walls and columns, waffle slabs and flat slabs.
FACADES	← Double-leaf ceramic brick façade with plaster rendering on the interior face and continuous cladding finish on the exterior face, for enhanced waterproofing and insulation.
EXTERIOR JOINERY	← External joinery in PVC or lacquered aluminium with thermal break, double glazing with intermediate air chamber (Climalit type) and tilt-and-turn, casement or sliding opening, depending on the case. ← Roller blinds in matching colour and material of the joinery will be installed in bedrooms.
INTERIOR PARTITIONS	← Party walls between dwellings shall be built using sound-absorbing perforated brick, rock wool acoustic insulation and Pladur-type dry lining on both sides. ← Internal divisions shall be executed using Pladur dry lining. ← Acoustic insulation (anti-impact membrane) on intermediate floor slabs.

INTERIOR JOINERY	← Armoured entrance door to the dwelling with hinges and security lock. ← Internal doors with sliding or hinged opening, as appropriate, in smooth white lacquered finish. ← Built-in modular lined wardrobes, fitted with overhead storage and hanging rail in matching finish.
FLOORING	← Large-format first-quality porcelain stoneware flooring throughout the dwelling. ← Non-slip porcelain stoneware paving on terrace floors.
WALL & CEILING FINISHES & FALSE CEILINGS	← Vertical surfaces of dwellings finished in high-quality smooth white paint, and false ceilings in the interior of dwellings finished in smooth matt white paint. ← First-quality tiling in bathrooms. ← Kitchen finishes combining paint and ceramic cladding.
SANITARYWARE & FITTINGS	← First-quality vitrified porcelain sanitaryware in white. ← Wall-hung vanity unit with basin and mirror. ← Non-slip resin shower tray with glass screen and thermostatic mixer with rainfall shower head. ← Premium-brand taps with dual-jet diffusers for greater precision of flow and water temperature.

KITCHENS

- ← Kitchen furniture with upper and lower units, Silestone-type worktop and matching upstand in the same material and/or ceramic tiles.
- ← Undermount single-bowl stainless steel sink with single-lever tap.
- ← Appliance package includes: extractor hood, electric oven, microwave and induction hob.

HVAC, HEATING & DHW

- ← Dwellings will be equipped with a ducted heating/cooling system using high-energy-efficiency aerothermal heat pump units.
- ← Electrical energy supply will be supplemented by a photovoltaic installation to reduce the energy consumption of the dwelling.

ELECTRICITY & TELECOMMUNICATIONS

- ← Complete electrical installation in dwellings.
- ← TV and telephone outlets in all rooms except bathrooms.
- ← A weatherproof socket outlet and a lighting point on terraces and solariums.
- ← First-quality switching mechanisms.
- ← Video intercom system.

GARAGE

- ← Garage access via automatic door with remote control.
- ← Direct access from the garage to the dwellings via high-energy-efficiency lifts fitted with safety and emergency devices.
- ← Trowelled concrete floor with polished finish. Paint on columns and walls up to a height of 1 m.
- ← Fire suppression system compliant with current regulations.
- ← Pre-installation for electric vehicle charging-

COMMON AREAS

- ← The development features a large swimming area with pool and children's zone. Water treatment, purification and filtration systems, underwater night lighting.
- ← Shower area, generous outdoor circulation and leisure spaces.
- ← Children's play area with high-durability play equipment, finished with rubber-cushioned paving in various colours.
- ← Exterior landscaping with a variety of Mediterranean species suited to the terrain and climate.
- ← Gym with fitness equipment.
- ← Multipurpose room, gastrobar and social club.
- ← Coworking room.
- ← Children's play room.
- ← Bicycle storage.
- ← LED or low-consumption lighting in communal areas.
- ← CCTV surveillance system.

CREARE *Programme*
